Kommunearkivinstusjonenes Digitale RessursSenter SA (KDRS) er eid av medlemmene som er kommunearkivinstusjoner fra hele landet. KDRS skal tilby tjenester og kompetanse til sine medlemmer og aktivt bidra til å utvikle og effektivisere langtidslagring av digitale arkiv innenfor kommunal og fylkeskommunal sektor.

KDRS ble stiftet i mai 2010 og har hovedsete i Trondheim. Vi har 11 medlemmer og dekker totalt 63% av landets kommuner og fylkeskommuner.

Last ned FortiClient

The screenshot shows a browser window with the URL <http://www.forticlient.com/>. The page features the FortiClient logo and the text "FortiClient Endpoint Protection". Below the logo, there is a paragraph describing the product's capabilities. To the right, a section titled "FortiClient Feature Highlights" lists several features with corresponding icons. At the bottom, there is a section for "New Features for Windows & Mac FortiClient v5.4" with a list of updates and a prominent green "FREE Download" button.

FortiClient Endpoint Protection

FortiClient
Endpoint Protection

FortiClient extends the power of FortiGate's Unified threat management to endpoints on your network. Desktops, laptops, tablets & smartphones, FortiClient enables every device - local or remote, stationary or mobile - to integrate with your FortiGate. With no per-seat license fees, FortiClient takes the headaches out of managing multiple endpoints so your users & guests can work efficiently anywhere, without compromising your security. It's the end-point solution for your FortiGate network.

FortiClient Feature Highlights

- Real Time Antivirus
- Web Security
- IPSec & SSL VPN
- Simple to Use
- Cross Platform Support
- Frequent Signature Updates

New Features for Windows & Mac FortiClient v5.4

- + Client Quarantine
- + FortiSandbox Integration
- + Certificate Provisioning
- + Central Management using EMS
- + Improved Remote Logging & Reporting
